

LESSONS LEARNT FROM TRAINING ACTIVITIES FOR PROFESSIONALS IN GRAND LYON

URBAN PLANING AND SUSTAINABLE REFURBISHMENT

RENAISSANCE PROJECT,
Zaragoza Final Conference

June, 4-5th 2012. Zaragoza, Spain
Paraninfo de la Universidad de Zaragoza

- ▶ An on-site training for building professionals
- ▶ including a blower door test and a thermal imaging camera test
- ▶ conceived to meet builders expectations
- ▶ lasting 18 hours

Rhône-Alpes Region

= 100 000 workers in the building industry

= more than 10 000 new workers / year

The big issue is to have a mass impact from 2010 to 2020.

Schools and training centers should train today on the subject of air-tightness the workers of tomorrow's buildings.

▶ 3 days of training for trainers in June 2010

▶ Many training centers are willing to develop this type of training.

The screenshot shows the Neopolis website interface. At the top, there is a navigation bar with 'RECHERCHE' and 'Connexion' fields. The main header features the Neopolis logo and the text 'Centre de Formation'. Below this is a navigation menu with items like 'Accueil', 'Néopolis', 'Accueillants Prescripteurs', 'Dirigeants/RH, Salariés', and 'Jeunes ou Demandeur'. The main content area displays a breadcrumb trail: 'Accueil > Catalogue > Le calendrier > SESSION Performances énergétiques et intégration des menuiseries'. The title of the page is 'CONTINUE - ÉTANCHÉITÉ À L'AIR ET INTÉGRATION DES MENUISERIES'. Under 'Dates de formation', it lists 'Du lundi 04 juin 2012 au mardi 05 juin 2012' and 'CONTINUE'. Under 'Les autres dates', it lists 'Du lundi 22 octobre 2012 au mardi 23 octobre 2012'. The 'Description du programme' section lists '1. Théorie : étanchéité, réglementation' and '2. Description des matériaux, techniques et logiciels'. On the right side, there is a 'Contact' section with two profile pictures and partial text 'Tr' and 'Fi'.

Two of them have already built a strong expertise.

A CD-ROM was edited by ALE following the training.

Awareness rising sessions for offices employees

« The monolithe » : an housing and office building in « Confluence »
